What is it that Drivers want the most?

WWW.PREPASS.COM

PrePass®

The Nation's Weigh Station Bypass System

"We have had nothing but positive comments from our drivers about the time it saves them not sitting in lines anymore...A great product I wish we'd used earlier."

— Michael E. Baker,
Usher Transport
Safety Director
Louisville, Kentucky

Each year The National Survey of Driver Wages™ staff conducts an independent survey of non-pay related services and benefits that carriers utilize or offer to drivers, which drivers find positively improve their lifestyle on the road.

PrePass® is the #1 choice on this year's survey!

That's why more than 450 carriers home based within the state of Kentucky representing over 3,000 trucks utilize the PrePass® System.

PrePass® is the largest weigh station bypass system operational in 24 states with 100 million bypasses to date. Our system consists of over 30,000 carriers that equates to over 250,000 trucks enrolled in PrePass®.

Our commitment to excellence continues through an equal balance of voice between motor carriers and state officials; this partnership ensures focused services and guaranteed data privacy.

The Road to Success is Paved with Great Advertising

"Prior to April 2003, the Kentucky Transportation Cabinet was enrolling an average of about 226 vehicles per month in the Norpass system. Since the launch of the campaign you created and produced, the average enrollment per month has increased to 400 new vehicles. One Alliance Communications certainly pushed the right buttons with our audience."

Mark Spellman
Service Manager/
Norpass Service Center

Our road successes also include work for the Kentucky State Police, Permit America, Chevy Trucks and the first ever Federal Highway Administration Award for innovation in the development and execution of a public relations campaign. We are privileged to design and produce Kentucky Trucker Magazine and the Directory you are holding in your hands right now.
